

THE DEEP SLEEP INITIATIVE

the fool  
believes  
himself  
to be  
awake

[www.DreamersOftenLie.com](http://www.DreamersOftenLie.com)

Dear Peter -

My name is Cassandra Morgan.

It has come to my attention that the information contained in this journal may be of value to those to whom the journal refers. Because of this fact, I feel that my quest for the truth and my personal safety are in jeopardy.

This journal is the culmination of my research and is supplemented with information from my online blog. I feel the need to stress that the search for the truth continues despite my absence. If his true motives are not unveiled and he is not stopped, I fear that our dreams will never be realized. He will usher in an age of chaos whether he chooses to acknowledge that fact or not.

I hope I have left enough information for you to pick up where I left off. Please, take the information, dissect it and supplement it. If you feel you cannot aid me, please copy the journal. It is imperative that the truth does not fall upon deaf ears. It is imperative that his research comes to an end.

Tuesday:

There is a person in the desert and  
and it is nighttime. I am dreaming  
as if I am that person. Sand is  
blowing around and I can't see  
anything but it doesn't bother me.  
I feel - safe - at ease... There  
are shells on the ground. There  
are silhouettes in the distance -  
bleeding? - I think. I needed to chase  
it. I was hungry. I pounced on it  
and saw a terrified face.

who are you  
visiting?  
How are you  
choosing?

Do you  
understand  
your  
limitlessness?

Wednesday  
night:

I am back in the desert - again at night. I am hungry - viscerally.

I see a starfish far away. Everything is super quiet. I feel uneasy. Threatened. A chase began - in circles. The starfish cracked.

I was being watched - like some huge eye. I hid among the pieces of the starfish and ~~saw~~ saw a weird being looking for me. I hid in the rocks. Still hungry.

why the  
desert.

9/2 " ... decide up or down? More like across.  
You don't understand, his not behaving  
in normal patterns. I can't control Chr— "

Describe your dream:

I am hovering over myself looking down at me and Peter. We are on the beach. We run to the shore holding hands. The ocean is clear at first but it falls in love with the sky & turns blue. I watch as Peter & me play but then I am far away so I start to build a sand castle. As soon as I build it, I tear it down. Then I smooth down the sand to make sure there is no trace left. I keep repeating this for the rest of the dream - building castles & tearing them down. I do it because I feel like I have to but I am not sad when I wake up. But I miss Peter.

# Dream Worksheet

Date: 1-5-90

Describe your dream:

The fairy & me are together. Then this weird scary thing starts chasing us. Then I am the fairy (or she's me) & I'm trying to flap my butterfly wings to get away because the place I am in is shrinking. I'm trying to escape but there's a mirror in my way. I know that the mirror will absorb me so I fly into it. I feel like someone I miss is on the other side but I can't tell him I miss him because I ~~couldn't~~ can't talk. There's someone looking into the mirror on the other side but he doesn't see me. I look at him until the thing catches me & I wake up.

Butterfly

## COVER STORY:

## The mystique of 'Boo berry'

By WILLIAM KENNY  
Times Staff Writer

To people who live near it, the former Philadelphia State Hospital at Byberry is a nuisance and an eyesore. To the business community, the 153-acre site along Roosevelt Boulevard in the Far Northeast is a potential commercial redevelopment windfall.

But to young people in the Northeast and well beyond, the overgrown state property with dozens of large, abandoned and environmentally hazardous buildings, as well as underground tunnels connecting it all, has long been seen as an amusement park.

And according to numerous sources contacted by the Northeast Times, at least **one of the people hired to protect the site from trespassers actually gave a group of teens and young adults free run of the site for much of last summer and into the fall.**

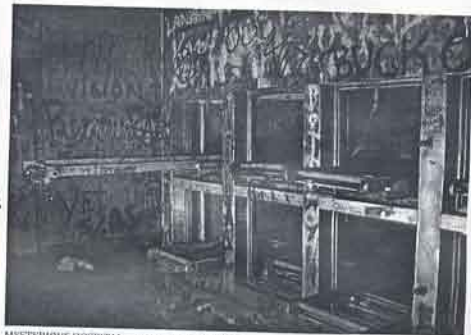

Due to a crackdown by local police at the former psychiatric hospital since early October, as well as the onset of cold weather, trespasser interest has cooled for the time being. But numerous Web sites touting it as a curiosity-seeker's delight and paranormal buff's paradise are alive and well. Although these sites expressly warn Web surfers that it is

both illegal and dangerous to visit Byberry, interest doesn't seem to be waning. "hour job to pursue a career as an independent filmmaker. But with **just two guards on duty at a time and a large piece of ground with cavernous buildings to cover, the security force is at a big disadvantage in stopping trespassers.**

This is one persistent thing. They will never give up trying to get into Byberry. To them, it reads like a Michael Myers story," said Philadelphia police Sgt. John Dougherty, referring to the murderous "bogeyman" character in the Halloween series of films.

Dougherty is a supervisor in the 7th Police District, which arrested more than 30 youths and young adults for trespassing on the property between early October and mid-November. Two former security guards confirm his assessment of the site's popularity. During their relatively brief on-site tenures, both guards saw an endless parade of young people trying to sneak onto the property and into the buildings. And many succeeded.

"One night, we caught twenty-nine of them and missed another twenty," said Jeff Minner, a security guard at Byberry from mid-August to early November.

MYSTERIOUS HOSPITAL: come on in, if you dare...

Although that night was unusually busy, the guards are good for catching at least a few trespassers each night, said Mark Goles, who worked there last April and May before quitting the \$7-an-hour job to pursue a career as an independent filmmaker.

But with just two guards on duty at a time and a large piece of ground with cavernous buildings to cover, the security force is at a big disadvantage in stopping trespassers.

A Scranton, Pa.-based company, Statewide Security Group, holds the state-funded contract to guard the site. The contract is administered through the Department of Public Welfare. It commenced on Nov. 7, 2001 and is scheduled to continue through next June 30. In total, the contract can be worth no more than \$342,611 to the vendor.

According to both Goles and Minner (who claims he was wrongly fired for a

leggedly showing up for work drunk), one particular guard was so determined to sway the playing field in his favor, he literally befriended some trespassers last spring and summer, allowing them free run of the property. Ultimately, several of the young people were captured in the recent crackdown.

Goles claims that the double-cross was all part of a stated plan by the other guard, who first contacted the young people via the Internet. "He was letting kids in for a while, then he busted them because he couldn't catch them," Goles said. "That's about the time I quit. 'Basically, he found their 'screen' names from (America Online) and started talking to them. He knew what he was doing. I saw him hanging out with them. He told me on one occasion what he was planning on doing."

Both Goles and Minner allege that the same guard allowed the young people to spend the night inside the

Our young Prometheus has held up quite well over the past few days. The strains on his physical and mental capacities have been arduous in the wake of the latest array of tests. I only wish he was aware of the great gains for mankind his sacrifice has allowed

Perhaps, in his own way, he does understand. Granted, not as the waking self appreciates his accomplishments, but it appears quite obvious the boy is becoming cognizant of his growing abilities within his world.

What happens to one world if  
you destroy the other?

monster?  
doctor?  
nightmare?

Dear Mr. Corrigan,  
Please forgive my breaking of silence.  
You said again never to contact  
you but I hope a simple note  
leaves no trace. I cannot live with  
the decision. I know you offer a better  
life for my son, but I have a strong  
heart. Has he asked for me? He is  
scared of monsters so please to check  
under his bed or read him the  
butterfly story. Our plan has fooled the  
world, but not my heart. I beg you,  
please allow my son to return to our  
home. I will find a way to return the  
money to you.

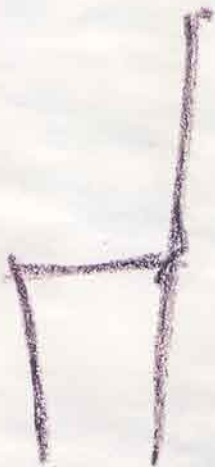

Sincerely,  
Lucia Natalia Santiago

P.D.
